

## Horizon

The never ending horizon  
As sky met land and sea  
The far off distance came together  
So as God joined man  
Like the meeting of the horizon  
One cannot see where  
The sky meets sea, but only  
Knows that there are two  
So when people see you  
Not to see you alone  
But God there right beside you  
You and God joined together  
Abiding forever – and Him in you  
No beginning and no end  
Only you joined to Him  
And that is what they'll see

This is your testimony  
This is your call  
Live life in such a way  
That people only see God in you  
Oh you're "you" on the outside  
But inside there is only God  
Only God living in you

This is your testimony  
This is your call  
We were created in God's image  
And daily we should be more so  
This is your testimony  
This is your call  
Live life in such a way  
That there is no beginning to you  
And no ending to God
